

Comin' Down In the Rain

music and lyrics by Buddy Mondlock

G **C**
Flipped into the wind like the ashes of her cigarette

D **G**
He got scattered and thin on the breeze as he tried to forget

C
He lost all his heat and his heart never will be the same

D **G**
He got lighter than air but he'll only come down in the rain

Strung out and hung out to dry flappin' under the line
It's not such a dignified place but he really don't mind
He says with his feet on the ground he'd have nothin' to gain
Claims he likes it up there but he'll only come down in the rain

CHORUS

G **Em**
Comin' down in the rain

C
Washin' out of the sky

G/B **Am**
Loaded down with that pain

D
There's just no way to fly

G
You can read him as clear as the wall

C G/B Am7 Am7/G
Where he once wrote his name

D **D7** **G**
It was right next to hers but it'll only come down in the rain

Burnin' himself out on a limb like a leaf in the fall
He blazed for a while now he's feelin' all dried up and small
The color's all gone, disappeared near as quick as it came
He says he can stay up but he'll only come down in the rain

(CHORUS)

You can read him as clear as the wall
Where he once wrote his name
It was inside a heart
That'll only come down in the rain
